

## RANDOM SAMPLING WORKSHEET

### REQUIRED SAMPLE SIZE

Total Number of Approved Applications on file as of <b>October 1<sup>st</sup></b>	=	_____	X	.03 (3%)	=	_____ or 3,000 applications, whichever is less (round all decimals up)	=	The total number of applications to <b>randomly select</b> and verify
--	---	-------	---	----------	---	---	---	---

Randomly select the required number of applications.

In a random selection, all applications both case number (food stamp/FDPIR/CA) and income must have an equal chance of selection.
